BLAINE IN OHIO.

THE IRISH REPUBLICANS IN CON-

They Pass Resolutions Against Free Trade as British Doctrine, and Indorsing Blaine - Cleve-land's Trip to Buffalo, New York,

CONCINNATI, October 1 .- Mr. Blaine visited the Soldiers' home at Dayton this morning, before starting for this place. At Hamilton Mr. Blaine left the train and was driven to the courthouse, where he made a brief speech upon the protective, tariff. He reached the Cincinnati depot at 3:30 p. m., and was driven through densely crowded streets to the Bur-

At 6:30 p. m. Mr. Blaine was escorted to the exposition building, where he held an informal reception, and afterwards took the platform, where he addressed the throng, complimenting Cincinnati upon its growth, within his knowledge of it, from a city of 40,000 to one of 400,000 inhabitants. His remarks contained no politics.

THE IRISH REPUBLICAN CONVENTION. CINCINNATI, October 1 .- The Irish American republican league convention re-assembled at eleven o'clock. The committe not being ready to report, the convention adjourned until after Blaine's reception in the afternoon.

In the afternoon the convention spent con siderable time in selecting a permanent chairman. A. L. Morrison was the choice of the committee. A motion was made to substitute the name of Colonel B. Land, but Morrison was finally elected by a majority of

Morrison was finally elected by a majority of four.

Resolutions were adopted ratifying the nemination of Blaine, declaring unanimously their opposition to free trade; that the doctrines of the democratic party on this subject are inimical to the best interests of this republic, and in the highest degree advantageous to England and other manufacturing construction.

countries of Europe. They further declare that the American people are quite competent to control their demestic affairs, and need no lessons in politi-cal economy from a government from which they had to wrest their liberty with arms, and against whose cruisers they had to fight during the late rebellion. It is as essential to reject the political economy which England seems to trust upon this country, as it was to defeat her armed forces, whether they fought under her own flag or that of the confederacy. They declare also in favor of the Monroe doctrine, and heartily indorse Blaine's hemane statesmanship and truly republican effort to preserve the republics of South America by his proposed congress in Washington. They conclude thus:

**Resolved, That the attempt of any European power to seize fortify or control the Panama canal, or any other water way across this continent, should be resisted to the utmost by every republicand was made against the interests of the Irish and industrial classes of this country, in a manner insulting to the labor interests and the Irish and we, as republicans and democrats alike, process against his nomination as an insult to all these people. against whose cruisers they had to fight dur

A TALK WITH PUGH.

The Alabama Schator Confident of Cleve CHATTANOGA, Tenn., October I.—[Special.]
Your correspondent had a very interesting interview to-day with United States Senator J.
L. Pugh, of Alabama. The senator has just returned from an extended northern and eastern visit. During the course of this conversation he remarked: "I have talked with leading men in New York who are in a position to make very careful predictions regarding the folitical outlook. They say there is no doubt about Cleveland carrying the state by a handsome majority. The fresh batch of Mulligan letters are proving very disastrous to Blaine land's Election

THE MERIDIAN CONFERENCE.

Frelinghaysen-Business Entered Upon.
Washington, October 1.—The International
Prime Meridian conference began its session
in this city at noon to-day. Forty
delegates were present, representing
twenty-two countries. Secretary Frelinghrysen, who returned home last evening, welcomed the delegates and snagested that Count
Lewanhaupt, Swedish minister and dean of
the diplomatic corps, be made temporary
chairman. In taking the chair Count Lewanhaupt suggested that Admiral C. R. Rodgers,
chairman of the American delegation, be
made permanent chairman of the conference. chairman of the American delegation, be made permanent chairman of the conforence. Admiral Rodgers, on assuming the chair, defined the object of the conference and expressed the hope that a prime meridian would be agreed upon. The election of vice-presidents was proceeded with and the election of sceretaries was postponed until tomorrow in order to give the delegates an epportunity to consult as to the number of secretaries to be elected and as to the language in which the proceedings would be printed.

THE END OF M'CULLOUGH.

The Engagements of the Great Actor All Cancelled. CHICAGO, October 1.—The management of McVicker's theater announce that John Mc-Cullough's engagement has closed. This is the result of the sensation of Monday night, when McCullough made a painful failure of the part of "Spertacus" in "The Gladiator." McCullough's managers state that the real trouble is the physical break-down of the great trage-dian. Any other assumption or statement they say, is unjust and untrue. The intimation that physical excesses have caused the present outcome is also declared by them to be not true. They contend that his physical condition has been bad for nearly two years. His managers believe that with rest and quiet he may regain his former vigor. All his engagements will be cancelled.

An English Opinion. Lonnon, October 1 .- The Times, in a leader this moning, says, it is likely that the repub-licans are still in the numerical majority in America, though it appears that democratic America, though it appears that democratic government, is impending through the action of republicans who are dissatisfied with the administration, withdrawing from politics, or temporarily joining the democrats. Reformation in the republican party would reclaim the dissatisfied element.

The Headquarters Changed. WASHINGTON, October 1 .- Acting Postmaster WASHINGTON, October 1.—Acting Postmaster General Hatton has issued an order to the effect that it having been decided best to remove the headquarsters of the postoffice inspector from Allanta, Ga., to Chattanooga, the chief postoffic in spector is instructed to obtain a suitable office for the inspector and his clerks at Chattanooga, Tenn., which will hereafter become the headquarters of the inspectors operating in the states of south Carolina, Georgia, Florida, Alabama and Tenfiessee.

A Would-Be Ravisher and Murderer Confesses His Guilt.

AUGMSTA, Maine, October 1.—John Baker, of Albion, arrested yesterday on suspicion of having murdered Mrs. Newell Tuck, of that place, has confessed. His account is substan-

tially as follows:

I was cleaning out the hog-pen in the morning back of the barn at 9 o'clock, and saw Mr. Tuck and another man working on the road opposite the barn. I knew Mrs. Tuck was alone, and leaving my work, I cut across the field and through the wooods towards Mrs. Tuck's residence. The distance is about three-quarters of a mile. I found Mrs. Tuck in an out-house; I said "Good morning." I then jumped for the woman and caught her by the throat. She attempted to scream, but I had such a grip on her throa that she could not utter a sound. She fell back, and I be oming rightend, ran. Idid not think she was dead when I ief here. I immediately returned home. My object was rape.

dollars, or in their option increase the sum of one hundred thousand dollars, in such manner as to preduce the yearly sum of six thousand dollars, which said sum desired shall be peid yearly to aid in improving the condition of the poor in the city of Baltimore, the first payment to be made at the expiration of one year from my death, and to contine thereafter in perpetuity, and as I have every favorable opinion of the usefulness and effectiveness of the present organization or body corporate known as the Baltimore association for the improvement of the condition of the poor. I recommend my said trustees, so long as in their judgement this charitable institution is efficiently managed, to give said sum of six thousand dollars to said association annually, for the purpose aforesaid, and upon the further trust, out of the net income of my estate, to devote the sum of \$50,000 annually to such objects of benevolence, to educational purposes, to aid virtuous and struggling persons, and to such works of public utility as are calculated to promote the happiness, moduluses and progress of society, the said amount of \$50,000 per annum to be apportioned to the furtherance of such objects, and to the accomplishment of such ends, in the judgment and at the discretion of my trustees. It is my will, and I so direct, that the contributions to the purposes named in this clause, shall continue during the lifetime of my children, Robert Garrett, Thomas Harrison Garrett, and Mary Elizabeth Garrett, and of the survivors of them, that the same shall be continued thereafter by their heirs, if the condition of the estate will then justify said appropriation. I desire that the contributions and assistance to be given under this clause of my will, shall, as far as practicable, be devoted to the promotion of the estate will then justify said appropriation. I desire that the contributions and assistance to so given under this clause of my will, shall, as far as practicable, be devoted to the promotion of the objects herein named, in the city of Baltimore and in the state of Maryland, but in case of special suffering or distress in other communities my said trustees shall have power to use their discretion and judgment in relieving the same. As in this clause of my will I dispose of certain shares of stock of the Baltimore and Ohio nailroad company, I deem it propor to indicate the reasons for making the disposition of that stock as herein previded. While the city of Baltimore holds its large interest in the stock of the company and in the "Johns Hopkins university," following the advice and recommendation of its founder, continues to be the proprietor of such a large probolds its large interest in the city of Baltimore bolds its large interest in the stock of the company and in the "Johns Hopkins university," following the advice and recommendation of its founder, continues to be the proprietor of such a large proportion of the company's shares, and while the shares of stock which I bequeath to my trustees remain in their hands, or their successors, I am confident that these three large proprietors, co-operating with the others, alike interested in the welfare and growth of Baltimore will control the management of the road in the interests of that city. I am, therefore, desirous that said trustees and their successors shall retain the ownership of the shares of stocks hereinafter mentioned, in order to aid in carrying out the line of policy which I believe has accomplished great results, alike beneadial to Baltimore and to the state of Maryland, as well as to many other states and communities, which have been brought by the Baltimore and Ohio railroad into close business relations with the city of Baltimore. I believe the policy of managing this road so as to bring the greatest benefits to that city, and also for the states and communities reached by it and its cooperating lines. My children, who act as my trustees are well acquainted with the lines of policy I approve in connection with the Baltimore and Ohio railroad, whose improvement and development have constituted the large part of the work of my life, and I have confidence that in representing this stock, they will, as fars it is in their power, co-operate with the other proprietors of the capital of the company, in carrying out such policy. It is, therefore, my will, and order and directions that said trustees and their successors in this trust, shall, out of my estate, hold 30,000 shares of the common stock of the Baltimore and Ohio railroad company for twenty years after the date of my death, while such stock is so held by said trustees and their successors, they shall pay the net income therefrom to my said thice ch

his three children. These three children are not only made the trustee, but also the executors of his will. It is understood that thirty thousand shares of the common stek of the Baltimore and Ghio railroad of the Baltimore and Ghio railroad company, in reference to which the preceed-ing disposition and directions are made and iven, constitute the individual holding of that stock by the late John W. Garrett, and d not include the large holdings of that stock by the firm of Robert Garrett & Son, which, ac-cording to the announcements which appear in the papers, is now constituted of Robert Garrett and Thomas H. Garrett.

NATURAL GAS. Birmingham on the Line of the Natural Gas Streak.

-BIRMINGHAM, Ala., October 1.-[Special.]-Since the big strike of natural gas that was obtained by boring deep down into the earth in and near Pitts burg, many persons, not only of this city, but sev eral residing in Pennsylvania, have believed that Birmingham was near the great gas streak that is known to extend in a southwesterly direction from western Pennsyivania through Ohio and Kenwestern Pennsyivania through Ohio and Kentucky; but no test has ever been made in this vicinity. However, natural gas has been discovered, within five miles of this city, issuing from discovery that it is not been discovered. The discovery has just been made by Mr. Johns, mining engineer of Pratt coal mines, and he is now conv inced that natural gas in large quantities can be readily obtained by boring through the coal measures of the Warrior busin into the sub-carboniferous and devonian rocks underlying the coal. The gas, as it bubbles up through the water, burns freely and is easily ignited. The Pratt coal company, on whose property this highly valuable fuid has been discovered, will begin in a short while to bore systematically for it with a view of obtaining a sufficient quantity for firing all their boilers and for lighting the town of Coketon.

The mineral exhibit will be exceptionally flue.

Raising the Tallapoosa, Woodshole, Mass., October 1.—The wreckers have succeeded in raising the Tallapoosa suffi ciently to remove her about two miles toward Edgarstown harbor. She now lies in six fathoms of water off the entrance to the harbor. The next ifft will take her in away from disturbance except by violent gales. It appears probable that in a few days she will be got where she can be worked upon and temporarily repaired.

ALEXANDEIA, Va., October 1.—The saw and planing mill of T. V. Rishelll, in this city, was destroyed by fire at two o'clock this morning, together with a large quantity of machinery. The adjoining woodyard of J. E. Rose was also burned.

YESTERDAY'S ELECTION.

THE STATE TICK ET ELECTED WITH-

Details of the Vote from All Parts of the State-The Legislative Contests - A Generally Dull Elec-tion and a Small Vote - An Election With But Little Opposition,

The election in this county was one of the uietest ever known here. There were no workers and the patriots walked up and deposited their ballots unmolested. The county went for the democratic nominees easily, as was expected. The full vote of the county has not been received, but there can be no change in the result as indicated below, The vote was very light.

NORTH ATLANTA.

The election precinct of the North Atlanta directive was a back room, in an alley running in the rear of DeGive's opera house. A number of people failed to find it. The vote there was light, and was as follows:

B. F. Abbott.....
John Thomas....
A. Mattison.....
Nick Holmes....
William Finch...

Kimball 1, E. F. Hoge 1.

The scattering at this precinct were-for governor:

W. A. Pledger. W. J. White.... For representative: West End voted 18 for McDaniel, 2 for Heyward, 20 each for the democratic nominees for the legislature, 6 for Mattison and 4 for the other two republicans. Edgewood voted 29

straight democratic tickets. The other country precincts have not yet been heard from. IN BIBB COUNTY.

A SMALL VOTE-SKETCH OF THE REPRESENTATIVES ELECT. Macon, Ga., October I.—[Special.]—The election to-day has been very quiet, not much interest being manifested. The vote has been light, there being no opposition. The following is the vote.

The vote, as far as ascertained, is as follows: J. W. Turner, 1,335; J. L. Johnson, 1,132; J. M. Walker, 1,111; A. J. King, 1,039; G. W. Thomas, 644; balance scattering. The colored candidate received about 600 votes. Two vaccinets are vet to beer from but it is not precincts are yet to hear from, but it is not probable that the result will be changed. Turner, Johnson and Walker are therefore elected. The issues were entirely-local, involving the new road law, the law taxing dogs and the fence law. It is probable that these laws will be modified the next session

of the legislature.

IN BARTOW COUNTY.

ADAIRSVILLE, Ga., October 1.—[Special.]—
There was a weak election. The vote was small. Governor McDaniel 173, Secretary of State Barnett 171, Comptroller General Wright 172, Tressurer Hardeman 172, Attorney Gen-eral Anderson 172, Senator Maddox 171; rep-resentatives: Felton 157, Fite 139, Conyers 27.

Felton and Fite are our next representa-tives. All the county precincts heard from give Fite 425 majority over Congers. The managers are counting out the vote at this lace, but it is estimated that the vote here will raise Fite's majority in the county to nearly 600. Dr. Felton will get nearly as many votes as both the other candidates. The

ANENGINEER'S STORY.

Forty-Five Years on the Footboard-The Romantic Record of a Busy Life.

iom the Montgomery, Ala., Advertiser Probably the oldest locomotive engineer in point of service in the south, if not in America, wert out on the Eufaula train the other evening. Uncle Ned Graves, aged 70, was the man and the record of his long and toilsome life would fill a volume and be as entertaining as the most highly colored romance of the day. Uncle Ned began work for the Georgia Central fortyyears ago,

shovelful of earth was thrown up at Savannah, which was the beginning of resent great Central system. During the first year or two he worked in the machine shops, and growing tired of that he was by his own request put on an engine, and for forty-five years he on the footboard and held the reins of the on borse. A few months ago he retired from we service on a life pension from the Centra with a life pass over the entire system in his ve had some mighty narrow espaces dur-se forty-seven years, he said to a reporter train. "Some how I've always come out dents unburt, and I've had a lot of ear,

being encouraged by the reporter, Uncle Ned Coreded:

last few years. "I find myself grossly misquoted," Mr. Pitkin replied. "At times during my present visit to the north, expressions are asc to me to which I have not given utterance, hie there is an old south, I would have you understand that there is a new south, quick-ened rich with vitality, resentful toward mist mildew, and genuinely progressive in

"The New Orleans exposition will have

the south, will it not?"
Yes, and I want to say that I rejoice to
the appointment of an Indianian of such
the and executive force as General J. R. ar ahan to serve as commissioner for this amonwealth at the exposition, where she ould stand in the van. Indiana should disty the evidences of her achievements in the field of labor at the great marine gate through which, with her western sisters, she can stimulate a both Maxican and South American demand for western wares. The naturest intelligence from those Ameri sections will be represented at New Orleans, alike in exhibits and progressive men, and eartily as we may well visitors and the accumulation of displays from European and Asian lands, I forecast especial advantage from this intellectual im-port of all American nationalities in this exchange and fellowship of their American thought in their iddustrial touch American thought in their iddustrial tonch and ultimate commercial lock of elbow with our own; in the growth, in fine, of an American consumship that would find its Liverpools, Manchesters, Belfasts and Hamburgs upon our own side of the Atlantic. Nothing could do more to temper the south than will this great exposition. Beneath all the heave and dash of partisan billows there is a tremsndous southern current of growth."

"What are the evidences of this growth?"

"What are the evidences of this growth?"
In the new south there are 800,000 spin
es; there has been an increase of 8,000 mile
new railroad in three years, and \$100,000, 000 in assessable values in four years; there have been prodigious yields, and there are vast coal, iron, cotton and corn fields care vast coal, iron, cotton and corn fields, and there is at the gulf door of the new south \$500. there is at the guil door of the new sound sour-ecc. 000 of Spanish-American trade. This new south is daily feeling a new faith in herself, daily thrusting her hand into her pocket for a bolder outlay; putting forth both hands, white and black, to her multiplyboth hands, white and black, to her mutchy-ing industrial tasks, exploring beneath the plantation level to the mine, rearing the fac-tory chimney and announcing a determined purpose of independence. The muscle in her arms, the self-faith in her heart, and the searms, the self-faith in her heart, and the accumulative means in her pocket forms her capital. Alabama has twenty-three cotton miles, Georgia sixty-two, Tennessee thirty-five, Virginia fourteen, Misryland twenty-four, North Carolina ninety-two, South Carolina thirty-one, Kentukey five, Louisiana seven, Mississippi twelve, Texas six and Arkansas four. In the iron and words on and near the gulf slumbers the promise that that gulf shore will yet be the great American shipyard. I confess myself an enthusiast touching these new conditions—this new impulse that, like an accorn in a flower pot, hold the certainty of growth, strong root, bulk and weight; and will burst the old environment.

Large quantities of wheat and oats will be sown in Columbia county this fall. While our cotton are nuch better than last year, the corn crops are nuch better than last year, the corn crops are nuch better than last year's crop, and there is more killing hows in the county than any year since the war. So, upon the whole, our fermers are in a better condition now than this time last

The Crops in Houston.

PERRY, Ga., October 1.-[Special.]—An abundant crop of corn, pens. and sweet potatoes has been raised in this county this year. Oats and wheat raised in this county to syear. Oats and whose did not turn out so well and a small area only was planted. The hog erop is steadily increasing under our stock law and this winter will be large. The business outlook for Perry is good. Taree new mercantile houses have been opened this

The cetton crop of this county is short on account of drouth, perhaps under last year's crop. Receipts of cotton at this place last year ware 3.000 bales; probable receipts this year about the same.
About 50 northern people have secured homes and will settle in our county in November. Real estate has increased \$66,000 over last year in the county.

THE LATEST SNAKE STORY. Towns County Comes to the Front With the Champion Exhibition.

HIAWASSEE, Ga , October 1 .- Towns county can lead with the biggest snake story yet. Mr. Wil-liam Carter, who is teaching school about three miles north of the top of the Blue Ridge, was no tified by one of his students that there was a suake there by one of all students that there was a surke between the schoolhouse and the spring. He introdistely sent two of his largest students out to kill it. When they got there they killed the snake, which was a pideo one, about two and a half fest leng, and around it were collected ninety five small ones from six to ten inches long, and close by another large one was killed, making a total of ninety-seven at one killing. These faces are from Mr. Carter himself, who can be relied upon for the titth of the statement.

COLUMBIA SUPERIOR COURT.

The Adjudication of Important Civil Busi-

ness-Acquitted of Murder.

AFPLING, October 1.—[Special.]—The fall term of Columbia superior court adjourned Saturday afernoon, after being in session six days, until the second Monday in December. This was the most interesting court held in our county for a number of years. Verdicts were rendered in three important civil cases, which have been standing on the dockets for some time. A motion for new trial was made in each case, and if not granted they will be taken to the supreme rourt.

The case of the state vs. Paul Griffin, for murder, was the most important criminal case disposed of. Judge H. D. D. Twiggs and Colonet W. D. Tutt appeared for the defendant, and the state was represented by Boykin Wright, the popular solicitor general of the Augusta circuit. The evidence was not sufficient and the jury rendered a verdict of acquittal.

A STATEMENT Of Facts For The People To Consider.

ATLANTA THE 12 1881 Emerging from a severe and long spell of typhoid fever. I discovered that the fever had settled in my right leg, which caused it to swell to an enormous size, remaining so quite three years, resisting all treatment. A small ulcer finally made its appearance a little above the ankle, which refused to heal to any and all external applications and the use of the most noted, so-called, blood poison remedies.

During this treatment the swelling remained the same, and the ulcer continued to enlarge, frequently discharging perhaps as much as a the ulcer was about two inches in diameter, extending to a depth near the bone. At one time it appeared that the flesh in all contiguous parts would surely become a running sore, as its peculiarly flabby, spotted und unhealthy condition clearly indicated, and it was ,int mated that I might lose my leg. My condition becoming so critical, and the ulcer enlarging so rapidly, that through the advice of my brother, R. M. Chesbire, we sent for Dr. J. P. Dromgodle, who made a thorough examination, and said that the flesh on my leg for six inches around the sore would soon slough off if not remedied; that I must positively remain quiet, have my leg bandaged daily aud

commence at once the use of B. B. B.

I acted according to instructions, and after using the second bottle became convinced that the medicine was having the desired effect, as the ulcer locked fresh and healthy, and commenced healing. I continued the use of B. B. B., and to the great astonishment and satisfaction of myself and friends, the ulcer continued to heal rapidly until now it is entirely well, and I am attending to my business at W. H. Brotherton's store. I do not hesitate to recommend B. B. B. as a wonderful, speedy and effectual Blood Purifier, far superior to anything else I ever used.

I refer to W. H. Brotherton, W. B. Cone, Major D. A. Cook, Dr. Park, Dr. J. L. Pinson and others of Atlanta, W. M. CHESHIRE.

I am well acquainted with the above case of my brother, and know the statements therein contained to be true, and take much plessure in testifying to the almost magical effects of the B. B. as a speedy Blood Purifier.

A PHYSICIAN'S TESTIMONY. I was called to see Mr. John Pearson, who was confined to his bed with what appeared to be consumption of the worst form. As all of his family had died of that dread disease (except his half brother), his death was regarded as certain and soon. After exhausting all the remedies, I finally as a last resort, sent for a bottle of Brewer's Lung Restoror and it acted like magic. ANOTHER RESCUE FROM DEATH. In 1881, while sewing on a machine, my wife was taken with a severe pain in her side, which was soon followed by themorrages from her lungs, severe cough and fever, and could neither eat or sleep, and in a few weeks was reduced to a mere skeleton. Her stomach refused to retain any food, and the physician thought one of her lungs was entirely gone. At a final consultation of two physicians her case was pro-nounced hopeless. I tried Brewer's Lung Restorer by advice of one of the physicians, and she began to improve after the third dose. TUTT'S

TORPID BOWELS, DISORDERED LIVER,

And MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Pizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompe; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stoois, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

ANTIDOTE TO MALARIA. HE REELS LIKE A NEW MAN. "I have had Dyspepsia, with Constipa-tion, two years, and have tried ten different kinds of pills, and TUTT'S are the first that have done me any good. They have cleaned me out nicely. My appetite is splendid, food digests readily, and I now have natural passages. I feel like a new man." W.D. EDWARDS, Palmyra, O. Sold every where, 25c. VANDERBILT'S MILLIONS! Could not buy from me what Swift's Specific has done for me. It cured me of Scrofula in its worst form, after I had suffered with it fifteen long years, and had tried all the remedies, only to break down my health and make me almost believe to the second of the second

ULCERS 25 YEARS!

A member of my church has been entirely cured of an ulcerated sore leg of twenty-five years standing, by using two bottles of Swift's Specific. She had various kinds of treatment, and had almost despaired, of being well. Swift's Specific cured her, and she feels that she has a new lease on life.

ECZEMA!

My daughter, seven years old, has been afficted with Eczena for two years, and after trying other remodes in vain. I gave her Swift's Specific, S. S. S. S. and one and a half bottles cured her sound and well.—It is the best blood remedy in the country Mass. M. S. JORINS.

AN OLD PHARMACIST.

I have had to do with Blood Diseases and selling Blood Remedies for twenty-five years, and do not hesitate to ray Swift's Specific is the best. Numbers of cures of Blood Poison by its use have come under my observation, and some of them wonderful. It is an excellent tonic, and is used largely by delicate ladies and children. Being entirely vegetatle, it does not produce any bad effects like potssh mixtures, and is the most satisfactory remedy that I sell.

G. W. Dixon, Auburn, Ala., Sept. 18, 1884.

INOCULATED POISON!

Some eight years ago I became the victim of a fearful Blood Poison, communicated by a nurse to my infant, and thence through the breast, and suffered for six long years. The Mercury and Potash treatment seemed to drive the poison further into my system only to break out in worse form on other portions of my body. Three months ago I began taking Swift's Specific, and it has cured me sound and well. It is the groatest blessing which has come to mankind in years.

> THE CONSTITUTION. Atlanta, Georgia,

ATLANTA, OCTOBER 2, 1884.

INDICATIONS for the South Atlantic States at I a. m.: generally fair weather, variable winds, nearly stationary temperature.

The nomination of General Denver, by the democracy of the eighth Ohio district, was a worthy tribute to a worthy citizen and a pallant democrat.

THE republicans say that they will carry Ohio if it becomes necessary to cover the state with dollar bills. As they have the United States treasury to use for this purpose, they can better afford it than can the democrats.

OUREN VICTORIA and the prince of Wales have been acting the part of mediators between the warring parties in England, and have effected a compromise, whereby the franchise bill will be permitted to become a

Roseson is for Blaine, Gould is for Blaine, Keifer is for Blaine, Colfax is for Blaine, Kellogg is for Blaine, Brady is for Blaine and almost every other convicted republican corruptionist, or monopolist in the land is for Blaine. Truly he may well cry, "God save me from my friends."

The work of the Peabody trustees shows that good results have followed their labors, About \$60,000 has been spent during the past year in furthering the cause of education. The sentiment in favor of the public school system has grown until now there is no danger of a retregrade movement.

TAMMANT'S support of Cleveland is daily growing more united. John Kelly has on more than one instance urged his election from the platform, and other prominent members of the organization are stumping the state for him. New York is no more doubtful state than Georgia.

It is noticeable that the Irish republican convention, which has just adjourned in Cincinnati, was composed of men for the most part in the government service, and that in the list of names pone of those appear which have become conspicuous for devotion to Irish interests. They were men without a constituency, and many of them without

The state election passed off quietly yes terday. The vote was an unusually light one. Among the names of the newly elected members of the legislature are many of the most prominent citizens of the state, and altogether the indications are that the state has elected a legislature which will be fully capable of handling the important measure which are likely to come before it.

In the death of Capiain John H. Flynn the city of Atlanta loses one of her most respected and valued citizens. He was in every sense of the word a "true Atlantian," and for many years his interests have been identical with those of the city. He was always among the foremost in such enterprises as has characterized our city. As master mechanic of the Western and Atlantic road. he was a most efficient manager and was loved by all who worked under or with him.

A FINAL effort will be made to-day to secure a state exhibit at the New Orleans exposition. The importance of this movement does not seem to impress itself on our people. Georgia may never have such an opportunity of presenting her abundadvantages offered by agricultural and mineral resources as is offered her at this world's fair, where they will be seen in contrast with those, not only of her sister states, but of all the union. Not a state in the country could make a more attractive exhibit,

MRS. HAYES'S husband has been heard from. Being introduced to an Ohio audience by Mr. Blaine, he offered a benediction by expressing the wish that "Blaine and Loran would carry Ohio by an old-fashioned republican majority." It will be remembered that Mr. Hayes himself only carried that state by a majority of 7,000 votes. He probably meant to say that he hoped Blaine would do no better. It is rumored that the miser ex-president is troubled with fears that a late frost will injure his next pea crop.

YESTERDAY'S ELECTION.

The election yesterday, thoughout the state, as far as we can learn, was very quiet and devoid of any great excitement even in counties where there were opposition candidates for the legislature.

Governor McDaniel has cause of congratulation that he has the confidence of the people of the state to such an extent that he has made two campaigns for governor in succession without opposition. We cannot recall another similar instance in the history of the state. In fact, we do not know of a single gubernatorial election, previous to this one in which a governor has been elected without opposition. Governor Jenkins, we think, was elected without opposition, but he elected for an unexpired term, and at a time when it was not known whether we could elect a governor or not. Governor Smith was also elected for an unex pired term without opposition. Governor McDaniel was not only elected without op position for an unexpired term, but he has been elected without opposition to a full term as his own successor, and after having received the unanimous nomination of his party. We think he has been strongly in-dersed, and that he deserves it. For the unexpired term he has made a careful, painstakng governor. He has made no mistakes and en to the discharge of his official du-

SOME SIGNIFICANT UTTERANCES. The remarks of Jeff Long, at a meeting of olored republicans, as chronicled by our Macon reporter, are worthy of note. As a matter of fact, they are in some respects, the nost notable utterances ever made by a colored republican, and we are glad of an opportunity to put them on record as evidence that at least one influential negro is in some degree animated by that spirit of citizenship without which suffrage and civil rights are mere mockeries, dangerous to the ignorance and prejudice that welld them, and, to the

Jeff Long is known to most of our readers as a colored man who has persistently and consistently opposed the claim set up by the white republican office-holders that they and they alone represent the republican party in the state, and that therefore they are entitled to all the federal patronage, and the influence which such pa ronage carries with it, which their corrupt party apportions out to Georgia. Long has considerable influence with his race, being a leader by reason of his superior intelligence, and of late years he has lost no opportunity to oppose the pretentions of the white office-holders. On several occasions he and his followers have proved themselves to be thorns in the sides of the white republicans, but they have been handicapped by a lamentable lack of independence on the part of other negro leaders who, for the sake of the crumbs that drop from the white republicans' tables are content to black their boots and carry out their spittoons. Jeff has shown himself capable of looking a little beyond the results of pettyoffice-holding, and seems to be impressed with the belief that the time has come for his race to think and act for itself, or, (if it has not reached that point) to be led by those whose hopes and sympathies are not only identical with those of the negroes, but who have a personal and individual interest in their welfare and advancement. This seems to be, and ought to be, one of the natural results of freedom and citizenship. The colored race is not free until it is politically free, and the privilege of suffrage ceases to be a privilege when those who exercise it neglect to manifest any concern in the interests of their neighbors. Thus far, the negro voters have been led by the nose by men of notoriously bad character, and this fact has led many people to take rather a gloomy view of the ultimate results of negro suffrage. It is a well-known fact that a negro will vote to place in a responsible office a man whom he would not trust in the ordinary affairs of life, and this tendency.

grees, for it is this reckless violation of the privileges of citizenship that prevents the colored race from winning the confidence and esteem of the whites. We do not know that Jeff Long is anima ted by any serious or sincere desire to reform his tace with respect to their attitude toward the state as a political body, but his recent utterances, reported in Tuesday's Constitu HON, are certainly significant. His remarks in regard to the processsons of prisoners that accompany United States deputy marshals whenever they return to their "headquar ters," are creditable indeed. They show that he has been irritated by the spectacle of innocent citizens arrested under the forms of law for the purpose of enlarging the fees and perquisites of the white republican officials. It is semething unusual for a negro to show evidences of sympathetic observation, and in this particular, Jeff may be an exception to the most advanced of his race; but the fact that the wrong and injustice perpetrated by arrogant deputy marshals have attracted his indignation, is a very hopeful sign in-

which has a touch of the sinister in it, ough

to be promptly corrected by those colored

men who have influence with their race.

Whoever begins a movement in this direct

tion, will deserve to be canonized by the ne

But the most hopeful as well as the most significant of Jeff Long's remarks were those in the course of which he advised his hearers to ask the Hon. Nat Harris to introduce a bill in the legislature to keep young negro boys off the streets. The remedy proposed is a crude one, but the fact that it is proposed by an influential negro shows that perhaps after awhile the humblest and least influential of the race will recognize the neces sity of properly training and controlling the negro children. We are glad, as we have said, to chronicle these things. It is of more importance to us that the negro voters should become good citizens than that they should vote the democratic ticket.

THE SOUTHERN BUSINESS PROSPECT.

Taking railroad earnings as a gauge of business activity, the New York Mail and Express sees the first signs of renewed commer cial prosperity in the the south. While the returns of northern roads have generally been unsatisfactory, the southern roads have more than held their own, as the following comparison of earnings from January 1st to August 31st of 1883 and 1864 shows:

Ala. & Ct. So. 8 679,814 \$ 645,047 \$34,767 Alla. & G.L. So., So. 9, 814 Chos. & Colifo. 2, 385, 629 2, 513, 813 Elik., L. & B. S. 481, 200 455, 892 25, 307 Chos. Totals.....\$21,950,230 \$21,771,591 \$385,74; \$227,10: Net Inc.... — 178,639 Net Inc.... Three Weeks in August only.

The earnings of fifty-four roads spread over the country from January 1, to August 31 show a net decrease of \$169,781. In the same time the eleven roads included in the table show a net increase of \$178,639. On the fiftyfour roads the earnings of the eight months were \$142,839,362, against \$143,009,148, a decrease of about .011 per cent, compared with the same time in 1883. On the eleven southern roads earnings for the eight months of 1884, were \$21,950,230, against \$21,771,591 in the same time for 1883, an increase of .068 per cent. If the eleven southern roads were separated from the other forty-three included with them in the totals for the fiftyfour, the difference would be greater, because the net increase on the southern roads helps to lessen the decrease on roads in the other parts of the country. The showing made, however, is sufficient to produce the impression that the south will lead the return of commercial prosperity.

As the south is now the only section in which there is an abund-ance of low-priced agricultural ance of ands, it is plain that within a very short time a great tide of people looking for new homes must set in. During the past fiscal

year the government disposed of nearly twenty-seven million acres, nearly one-half of which was located in Dakota. Never has there been such a demand for government lands; and it is estimated that the government does not now hold over 5,000,000 acres of good agricultural lands. These remaining acres are located far away from markets and civilization. The government supply is practically exhausted, and the railroads do not propose to sell their lands at government prices. These undoubted facts indicate an arly demand for our unoccupied lands; and when such a demand becomes strong, not only southern railroads, but all the southern country will "lead the return to commercial prosperity," and the boom will become so great and far-reaching that the entire country will come in for a share of its benefits. There was a considerable demand last year for the public lands in the south, 1,050,000 acres were disposed of in Louisiana;242,268 acres in Mississippi, 387,280 acres in Alabama, 317,181 in Arkansas, and 714,818 acres in Florida. These figures are alone indicative of what is coming. Every acre of our unoccupied lands will be in demand within ten years, and when that time comes, the dreams of southern prosperity will be amply fulfilled, and all who staid at home, will be glad they did not exchange familiar scenes for pastures

South Carolina has a local option law, under which the sale of liquor is prohibited in many towns and counties. Texas came within four votes of the equired two-thirds majorlty in the legislature for a prohibition constitutional amendment. Unabtedly the south leads all the other section in the matter of temperance.

It is possible that something will have to be done to check the growth of cities. The London Speculator expresses the opialon that the tremendous spread of London involves a grave social danger. fould multiply these testimonies, especially from such great men as Cardinal Manning, representing Catholicism, and Canon Farrar, representing Protestantism, but the above citations are free from any suspicion of religious bias.

Two arguments seem to me conclusive:

1. The three great evils mentioned operate only at times, and in limited localities. Intemperance has plied its destroying agencies always and everywhere, until the rise of prohibition. The "devil in solution" never takes a holiday.

2. The destruction wrought by war, pestilence and famine ends with the life of its victims. This is hardly ever true in regard to the evil of alchoand famine ends with the life of its victims. This is hardly ever true in regard to the evil of alchoholism. By the law for heredity, it is transmitted, multiplied, and sends in to coming generations far and wide, fast succeeding panes of pain. THE NORTH CAROLINA EXPOSITION, The Oration Delivered by Senator Hawley,

of Connecticut. RALLICH, October 1.—To-day, at noon, the North Carolina state exposition was formally opened. There are here thousands of people from all parts of the state, and from beyond its barders, on the grounds. The city is decorated with flags and banners of every description, and wears a brilliant aspect. Senator tion and wears a brilliant aspect. Senator Hawley, of Connecticut, arrived last night and this morning was accorded a reception at the effice of the governor of the state, which was largely attended. At 10:30 four battalious of state guards, comprising twenty-one companies, with six military wenty-one companies, with six military ands, received Senator Hawley, Governor arvis and other state officers, judges of the upreme court and distinguished visitors at supreme court and distinguished visitors at the north gate of the capitol, and took up the line of murch to the exposition. The day is fair and the display was magnificent. Promptly at 12 o'clock the opening exercises began, with a rendition of "America" by the military band, and this was followed by an appropriate prayer by Rev. Robert Burwell, D. D., of this city. Governor Jarvis delivered an address of welcome, closing by introducing the crator of the day, Senator James R. Hawley. The oration was patriotic and eloquent and about two hours long. President Primrose of the exposition open. All the bands played in concert the "Old North State," and Governor Jarvis, Senator Hawley and other distinguished gentlemen proceeded to the main exposition building, the doors of which were opened on their arrival, passed to the great engines, turned on the steam, and the great engines, turned on the steam, and put the machinery in motion. The exposition is a splendid exhibit of the state's exhaustless resources. Sixty-three counties are making individual exhibits independent of the fine state display made at Boston, which itself has been greatly enlarged and improved.

A BEAUTIFUL PLACE.

A Brilliant Opening at Duffy's Last Night .. A Great Rush. A decided sensation was created by Mr. J. J.

Duffy's opening yesterday evening. For some time the handsome store at 75 Peach tree street, has been in the hands of artists who have been converting it into a com-plete "art exposition." The walls plete "art exposition." The walls and ceiling were transformed into the most lovely views, indeed the walls were made a perfect panorama of beautiful pictures. The store furniture was all painted in bright colors, and when at five o'clock the doors were thrown open to the public for the first time, everything was in harmony, the beauty of the pictures and the brightness of the furniture, and the many and variously colored cans and packages blended into a perfect bouquet. From the moment the store cremed there was a rush, and several hundred ladies and gentlemen visited "Duffy's" during the evening. Two blazing electric lights cast a brilliant radiance in over the beautiful scene, and until near midnight the store looked like a big wedding reception with the guests admiring the numerous presents. Mr. Duffy was on hand, the same easy courteous gentlemen he always is and welcomed the hundreds who called. He was congratulated on all sides, and deserveely too, for there is not a handsomer store in the world than his was last night when the hundreds of ladies and gentlemen who appreciate him and his efforts called to pay their respects. He sold nearly five hundred dollars worth of goods to ladies who wanted something from "Duffy's opening." spects. He sold nearly five hundred dollars wort of goods to ladies who wanted something from "Duffy's opening." The store was absolutel packed with the best people of the city and a seemed to enjoy themselves seeing the sights i detail, or stopping a moment to watch the worderful gas engine that runs the coffee grindin machinery. The opening was a big success an Mr. Duffy havidg had his house warming is "a home" from this on.

For Thirty Days.
Will McKinnon was up before the recorder yes terday morning to answer to the charge of disturbing the peace by some very disorderly conduct and ing the peace by some very disorderly conduct and profane language. McKinnon had been arrested at the instance of Mr. Cook, with whose wife he was reported to have been on friendly terms. When he and Mrs. C. left Cook's house a few nights ago, he had a row with Cook and resorted to biasphemy and vile epithes to assert his courage. Cook fired him out and for the benefit of himself and the public, had him arraigned on the charges indicated above. The recorder sentenced him to thirty days on the rock pile.

The Democratic League.

The democratic league held a rousing meeting Tuesday night at the state library. There was a good attendance and much interest was shown. Judge George N. Lester was preseent and made a happy address, heartily approving the objects of the league and wishing it unbounded success. The following officers, not elected at the last meeting, were chosen: Second vice-president, J. W. Owen; executive committee, Charles S. Northen, Mr. Clark Howell, Mr. P. H. Bell and Mr. Burton Smith, Mr. Paul Tuggle and Mr. Peter Reagan. A committee on enrollment was provided for and everything is in shape for the continued success of the league.

The Artesian Well.

At midnight the artesian well was 297 feet deep and progressing nicely. In boring yesterday Colonel Baum struck a crevice and a considerable por-tion of the water ran cut, but the cavity seemed to fill up and the water soon resumed its former depth

From the Jacksonville, Fla., Herald.

"Now comes a report from abroad, but con that the Florida railroad and navigation company, of this state are forming a syndicate to purchase the Bainbridge, Cuthbert and Court and Control of the State and Control umbus railroad in Georgia, the price to be paid now being under consideration. Our in-formant says he learns from those interested that this will give the syndicate and the Flo-rida connections the key to the west, holding now, as they do, the key to the southwest. pany, and connecting lines in Georgia. Well, this may all be true, but when two such powthis may all be true, but when two such pow-erful corporations begin to countermarch against each other, there is no telling who will be outgenerated before the end is reached. Of course, none of the officials of the Florida railroad and navigation company in this city are prepared to talk to newspaper men upon so important a matter before the contemplated negotiations are consummated; but they should

What Colonel Richard Peters has Done and is Doing for Atlanta. Mr. Richard Peters has done much for Atlants and Georgfa, but in nothing has his service bar more efficient than in the establishment and maintenance of the Atlanta street railroad conmore efficient than in the establishment a diminianance of the Atlanta street railroad company. The effect of this road on the quarters which it penetrated, and which, before it reached them, were perfectly inaccessible, has been wonderful. Whenever it was ascertained definitely that a street car line was to be run out a certain street, property at once went up from twenty-five to one hundred per cent. People who were searching for pleasant homes, speculators who were looking for bargains, rushed in to buy, and almost before the tracks were laid the evidences of improvement could be seen on all sides. Mr. Peters has secured the confidence of the public by the knowledge they have derived from long experience that wherever he puts out a line he will equip and maintain it properly. Backed by ample capital, with the superintendence of the road in the successful bands of his son, Mr. E. C. Peters, the service of the Atlanta street car company is second to none in the country. His lines reaching out Marietta, Peachtree, Decatur, Whitehall and McDonough streets and reaching almost, every quarter of the city, cover about ten miles. In order to maintain this length of lines perfectly he needs an immense number of mules, horses and cars. His idea has been to supply not only the regular travelon each line, but to have a reserve supply of cars, mules and drivers that could meet any emergency. Secondly, he can in thirty minutes notice put on all the of fitteen extra cars, most of them of the largest size, epen, pienic or excursion cars, built in the handsomest manner, and aruch more comfortable in the summer season, in which they are most generally used, than the closed cars. Mr. Peters watches closely every improvement made in street cars, in street car tracks or in the motive power. His company has during the present year and purt of last year spent several thousands of dellars paving the spaces between each track on their line with Belgain blocks. The tracks are sunk in the Belgain blocks or that the movement of the cars

An Assignment Made.

Chattanoga, October 1.—Bpecial.]—C. H. Carrington, greer, on Montgomery avenue, made an assignment to day. His labilities are about \$1,200 with \$500 assets.

A decidedly favorable impression was created by the Grau opera company in the "Little Duke" last night at the opera house, to a good house. Mr. Grau has a strong company this year. The principals are good. The chorus is large and powerful. The costumes are elaborate and the general ensemble very pleasing. Mr. Greensfelder made a lecided hit as "De Montaland." Miss Grey though suffering from a severe cold, was very good in the title role. The school room scene was good in the title role. The school room scene was splendidly done, and the applause and langhter throughout the opera was a thorough illustration of the fact that the audience was pleased. The march in the third act was well done and much applauded. At the matinee to-day "Little Duke" will be repeated, and to-light the best opera comique before the public will be given, "The Queen's Lace Handker-chief. Mr. Grau agrees to give this work in superb style, and the costumes are said to have cost over \$5.000. Mr. Greensfelder will appear in his original role, and the chorus which appeared here last year with the New York Opera company will be heard in its entirety.

Rev. Dr. Barnett conducted the servics yesterday morning at Trinity church, reading for Scrip-ture lesson that wonderful prayer of the Son of God, xvii. ch. St. John. Stocks as Reported in the New York Stock

NEW YORK, October 1.—The stock market was less active than yesterday, and fluctuations as a rule were confined within comparatively narrow limits. In early transactions prices advanced 1/8 3 % per cent compared with closing quotations yes terday, but the advance induced a realization, and this, in connection with sales for short acco led to a decline of 1/62 per cent. During the af ternoon a firmer feeling prevailed, and at the close ing dealings the market was strong at recovery of 34 to 1% per cent, the advance being led by Gran-gers, Union Pacific, Lackawanna, Lake Shore and Missouri Pacific. Changes on the day's transac-tions were unimportant, except for Lackawanna and Northern Pacific preferred, which show a de-cline of % to % per cent. Sales 206,000 shares.

THE CHICAGO MARKET.

Features of the Speculative Movements in Grain and Produce.

By telegraph to The Constitution. CHICAGO, October 1-The feeling in wheat was ery weak at the outset to-day, but the market gradually developed strength and closed on the afternoon board at the best figures in a number of weeks. Speculative trading was active, and during the afternoon the shorts displayed some anxiety to cover. Receipts here were much smaller, and arrivals at the other primary points were much smaller than had been anticipated. The latest quotations were 79½ for October, 78½ 378% for November, 78½ for December and 73% for January. A very unsettled feeling prevailed in the corn market. There was a very active demand, princh-

pally from shorts, who were anxious to cover. ow ing to the great uncertainty of the market. No deliveries were made on October contracts, demonstrating that the bull clique owns all the cereal now in the market. Receipts were smaller than yesterday. The market for October opened exited and higher, advancing 2c from the start, fell 4c, advanced 1/8c and closed on the regular board 1%c over yesterday. November closed 2c higher on the regular board and advanced 1%c on the afternoon board, closing 3%c higher than yesterday. All the year closed 2%c and May 13%e over yesterday. GEOEGIA AT NEW ORLEANS. The Question of a State Exhibit Probably

to be Determined To-Day. At the consultation of district and county commissioners held in Atlanta four weeks ago the unoninous expression was in favor of a state exhibit at the New Orleans exposition and it was agreed with equal than mily that Georgia could make a display which would compare favorably with any that would be seen at that great illustration of the world's material and industrial rocaurees. Though nearly every one of the commissioners then, present, reported a giogny prospect for the collections by voluntary contributions of enough money to a gleany pro-sect for the collections by voluntary contributions of enough money to collect and display specimens of Gaorgia's resources, they all agreed to make, the nore effort. Circulars were printed at the effice of Mr. D. C. Bacon, U. S. commissioner from Georgia for the exposition, and were sent to every county commissioner in the state for distribution among the people. It was determined to open subscription books in all parts of the state, and it seemed that by a little help. Major J. F. Cummings is very sick at the of the state, and it seemed that by a little help from all quarters that \$10,000 or \$15,000 could be easily raised. The commissioners adjourned enthus astic for a state display and resolved to the commissioners adjourned on the commissioners and the commissioners and the commissioners adjourned on the commissioners and the commissioners are commissioners and the commissioners are commissioners. do their best to secure one. They had passed a resolution that after making a thorough canuses of their districts by counties they would inform Mr. Bacon of the result of their lates. Reports from all the districts were to have been sent to him by the 1st of October, and he was expected from the information thus supplied to determine whether or not it would be advisable.

To ATTEMPT A STATE DISPLAY.
Yesterday was the time appointed for this urvey a the field. Mr. Bacon had requested that as many of the district commis possibly could do so would be present, so that they could consult as to the situation. Yesterday, however, there were only two commissioners to meet Mr. Bacon. They were Major J. M. Couper of the first district, and Mr. Cobb of the third district. They have been very diligent in their efforts. Mr. Cobb of the third district. They have been very diligent in their efforts to secure contributions from their districts. If the other con missioners have succeeded so well Georgis will get her exhibit. Mr. Bacon has received a number of letters from the commissioner. a number of letters from the commissioners since their neeting here early in September, but he did not feel yesterday that he had been stifficiently intormed to take any definite action. He therefore determined to wait trail to-day, when it is hoped that more of the commissioners will arrive, and that those who do not come will have sait full and accurate a stements of what may be expected from their districts.

Making the question of a state exhibit contains in doubt, it becomes plainer every day that Georgia could

MAKE A GRAND DISPLAY,

MAKE A GRAND DISPLAY,
if a few thousand dollars were contributed by
her people. Letters are constantly coming in
to the cenmissioners' office in Atlanta making inquiries as to the state exhibit, and bringing news of articles of every conceivable kind
which are ready to be contributed. Mr. N. A.
Fratt, the analytical chemist, in
clarge of the prospective mineral
daplay, has already a remarkably fine collection of geological specimens, and is adding to
it every day. This display alone would reveal
nath concerning the native wealth of Georgia that is unknown to her own people. That
a inguificent state exhibit could be arranged,
even at this late day, there is not the least
doubt. The only question is whether or not
the meny can be raised that is absolutely
necessary for this purpose. This problem will
peobably be solved to-day. If the project for
a state exhibit should fail there will still be a
large number of private exhibits from Georgia, but no matter bow many there are, or
low excellent they, may be, Georgia, as a
fate, will not be seen in the salentid again.

The third quarterly meeting of Fulton county Sunday-school association was held at the First M. E. church yesterday morning at 10 o'clock, the president Rev. A. G. Thomas, presiding. The attendance was good, about thirty schools being represented. The reports were all of the most encouraging character and indicate great progress of the work in all parts of the county. The association novembraces sixty-four schools, with an aggregate membership of over seven embraces sixty-four schools, with an aggregate incentership of over seven thousand. Stirring speeches were made by J. C. Courtney, Thomas Moore, A. S. Smith, Rev. J. H. Parker, J. C. Kimball, Dr. Thomas, Kev. Virgil Norcross and others. Mr. Courtney mentioned, as a very significant indication of the character and power of the Sunday school work in the state that great revivals of religion followed, immediately, upon the lolding of the last three state conventions in Savanneh, Augusta and Columbus, and repeats from these cities all agree that the gracious influence growing out of these conventions are still felt in those the gracious influence growing out the gracious influence growing out of those conventions are still felt in those cities. At four o'clock yesterday afternoon Captain John H. Flynn breathed his last at his residence at the corner of Collins and Gilmer streets. Captain Flynn was first taken sick on last Thursday week at the shops, where he had a fainting spell, and whence he was taken to his residence in a very feeble condition. He returned to work on the Friday following. That night he was taken sick again and remained at home until last Monday week when he made another attempt to go to work. A public spirited man, and a sincere lover of his adopted home, she always found in him a sturdy helper. In 1872 the Young Men's library, now one of our proudest achievements, had been established several years, but, on account of the stringency of the times, it was in a moritund condition, and all the indications pointed to its speedy disintegration. It was overwhelmed with debt, and the few volumes that had been cellected by the aid of generous spirits were the only visible assets of the association. The treasury had been depleted and the demands for current expenses could not be met. At this juncture Captain Flyna

For several successive terms he occupied the distinguished position, and when he went out of effice the shelves had been augmented by more than double the number of volumes they held at his induction, and besides the treasury held a handsome surplus, ready for investment where his successor night see fit. He was married on the 19th of October, 1858, to Miss Kate Dougherty, and a happy union to Miss Kate Dougherty, and a happy union of twenty-six years demonstrated his good judgment in the selection of a partner. The circumstances that led to his meeting Miss Dougherty are rather among a desired miss. Dougherty are rather amusing and will bear relation. accommodation train from Ringgold that he became very much incensed at the conduct of a young girl who persisted in assailing his train with stones as it passed by her idoor, sometimes doing serious damage by breaking the window panes which the engineer had to replace out of his own pocket. At last he could endure the sport no longer and stopped the train one day to remonstrate with the young lady's parents. By this means he got a nearer view of her and the result was

AN IMMEDIATE CONQUEST.

The feeling was mutual and the young engineer commenced a courtship, as it were, by train. The parents of the young lady at first objected to his paying his addresses, but after they had discovered the sterling qualities of the nan all objections were immediately removed and the long-deferred wee ding soon followed. He leaves this wife of his youch and five children to mourn his untimely death.

He was only 56 years of age when he departed this life, and in view of his vigorous constitution and portly physique it should have seemed that he would be spared many more years for usefulness in this world. But the decrees of heaven are just as well as insecutable. In character he was generous, but firm; forgiving of all injuries, but inflexible in the right. A faithful friendship was reciprocated by him with an ardent affection, while the vindictiveness of an enemy he always overleaked, for his noble nature scorned revense.

A BURGLAR CAUGHT. Robbers Who Enter a Man's Store While He is Lying Dead at Home.

Mounted Officer Clarke will return to this city this morning from Savannah with J. G. Asberry, who is wanted for burglary.

Asberry is a young man who has been living in Atlanta for several years. He is suspected of being a party to the burglarious entrance into Menko's clothing house about the 1st of last month. It will be remembered that while the late Mr. Menko was lying dead in his house in this city some burglars He is Lying Dead at Home.

His vision did not reentered his store through Youngblood & Hall's effice and carried away three or four hundred dollars worth of ready-made clothing. The burglary was discovered before day and the best detective ability in the police department was detailed to look into the affair. Mounted Officer Clarke had his suspicions directed to Mike Rinkle and J. G. Asberry, who lived on Mitchell street, but before he could make out his case against them they dropped on the turn for some days, and then only partially. Mitchell street, but before he could make out his case against them they dropped on the investigation and left the town. This was two or three days after the burglary and their flight put a stop to the work. A few days age Chief Connolly assertained that a trunk and valise had been shipped to Savannah and was at the same time informed that the valises probably contained some of Menko's clothing. The chief immediately telegraphed Chief Anderson, of Savannah, to open the trunks and examine contained some of Menko's clothing. The chief immediately telegraphed Chief Anderson, of Savannah, to open the trunks and examine the contents. The examination was made and the trunks were found to be full of Menko's clothing. These facts were wired Chief Connolly, and at once he telegraphed Chief Anderson to hold the trunks and cause the arrest of any one who called for them. The trunks had been consigned to Tony Steck and on Monday last a young man entered the express office and asked for the trunks, His arrest quickly ensued and he asserted that his name was J. G. Asherry and that he did not want to take the trunks out of the express office, but wanted to forward them to Tony Steck ing Nashville, Tennessee. Asherry was, however, held and Officer Clark will probably reach the city with him to-day. The Tony Steck to whom the trunks were assigned is presumed to be a fictitious name. It is thought that Toney Steck and Mike Rinkle sreone and the same, and telegrams have been sent to Nashville authorizing his arrest. Several other Atlanta boys were supposed to have had a hand in the hunglary.

A Pair of Young Atlantians Taking in the Country Just for Fun.

The Mobile Register has this about two Atlanta boys, who seem to be running an independent schedule over the land:

Monday morning on the arrival of the southbound freight train of the Louisville and Nashville railroad, which gets to this city at two a.m., two boys, Ernest Roach and Walter Withers, were found in the meat car and taken to the gnard house by a private watchman and charged with Leing dangerous and suspicious characters. The boys say that they are from Atlanta, Georgia and belong to good families of that and belong to good families of that city. Roach says his father is a practicing physician, and that he is a cousin of the governor of the state. Withers port the governor of the state. Withers port the governor of the state. They jeit the homes of their youth without the parental knowledge last Tuesday and boarded the train with New Orleans as their prospective destination. They had between them 24.75. They spent two days in Montgomery and arrived at renacola junction without money last Saturday. Saturday night they took a berth in a meat car on a freight train bound for Mobile, from which they were aroused and taken to the guardhouse, as previously stated. Their case will be looked into by the recorder this morning.

But Not in Time to Prevent a Double Wedding on a River Bridge.

Quite a romantic double wedding was consummated a few days ago, on the bridge on Flint river, about four miles from Lovejoy's Station, in Henry county. It was the same old, old story, where true love resides, it is useless to interfere. There is a young man living in Henry county named Benjamin Linler, and there, or thereabouts, resides a young lady by the name of Miss Willie Almond. Mr. Linler was deeply in love with Miss Willie, and proposed and was accepted, but alsa, there came a scemingly hopeless objection to their marriage in the shape of Mr. Almond, the father of the expectant one. There was another couple in the neighborhood, Mr. Charles Norton, and Miss Tommie Stephens, who were also hopelessly afflicted with the same disease—love, where also intervened an objection on the part of the old man, on the lady's side. After the young men were shown up te the old gentleman in their brightest colors, they still refused, and would not relent, though the pleading and entreaties of the young ladies were frequent, and long their mind were made up, and they told their daughters that they might

to that decision of the old men was broken in a gentle whisper to them, only said that's all right, and added, "time will tell." Securing the promise from his intended, that she would be ready and waiting when he came for her, Mr. Linler departed, thinking how foolish it was for the old man to kick in this case, and went directly to his friend in woe, and laid the situation before him. Mr. Norton straightway went and made the arrangements with his intended and the marriage was arranged for a certain day, very soon. The next party to whom the news would have to be broken, was the parson. That being fixed there was nothing to do but silently await the day. About a week after the above arrangements, a party of four might have beeu seen on the bridge that affords the passage way from the neighborhood to Lovejoy's with a frightened expectant look on couples happy. All in all it was very nicely arranged, and was tinted with a good deal of

THE GRAND ARMY.

A Post Organized and in Good Working Order in Atlanta.

The second meeting of Post O. M. Mitchell of the Grand Army of the Republic was held last night and the organization completed. The old union soiders are taking a deep interest in the matter, and that follows: The old union soidiers are taking a deep interest in the matter, and that feeling finds a hearty echo in the breasts of their late opponents on the battlefield who live in Atlanta.

On Wednesdey evening, September 24, Colonel E. S. Jones, of Nashville, Tenn., department commander of the department of Tennessee and Georgiu, organized in this city Post O. M. Mitchell No. 21, of the Grand Army of the Republic, with the following officers:

HEARD TEN MILES AWAY.

A Remarkable Story Concerning the Arts. sian Well-A Rock Telephone.

Atlanta is not having all the fun afforded by Atlanta is not having all the fun afforded by the criesian well. Its influence is not bound by the corporate limits of the city. The people of Clarkston, a village on the Georgia read, ten miles distant, are probably in better communication with the well than nest of the inhabitants of Atlanta. When the drill struck the granite through which it has been bering so long, one or two Clarkston people asserted that they could hear a dull thud at every drop of the ponderous instrument. At first it was supposed that the sound was merely imaginary, but the truth was easily ascertaized and there is no longer any doubt that the drill can be heard in Clarkston. There is a ledge of rock cropping out in the town which is undoubtedly of a ledge of reck cropping out in the town which is undoubtedly of the same formation as that now being penetrated by the drill at the well. The formatical extends on fiares out in the abnormal development of stone Mountain, hider under the earth again, cropping out in more or less prominence now and then for miles and iniles down the line of the Georgia road. It is said that by laying the ear close to the ground the sound of the falling drill is remarkab'y distinct at Clarkston. How much further the rock telephone carries the record of work the artesian well has not been ascertained.

Rafter, the Contractor, Passes Out of the Clutches of the Law.

At his preliminary trial before Justice Pitchford, Kafter, the absconding contractor, was released from custody, the evidence adduced not being sufficient to convict him of the charges preferred. There were two warrents issued against Rafter, charging him with cheating and swindling—one sworn out by Mr. Norwood Fleming, and the other by Mr. Ferguson, foreman of the Graut building, for the erection of which Rafter had the contract. The testimony given in the court, was not deemed sufficient Kafter, the Contractor, Passes Out of the Rafter had the contract. The testimony given in the court, was not deemed sufficient to convict the prisoner of the charges prefered, and he was consequently released. The rum of \$120 and a railroad ticket to New York, found on the person of the prisoner when he was arrested in Cleveland, were disposed of by making a satisfactory division among the attorneys, prosecutor and defendant. Mr. Fleming received \$25, his counsel \$25, Rafter the ticket and \$20, and Rafter's counsel \$50. Rafter was discharged and may coursel \$50. Rafter was discharged and may leave the city.

Doris's Menagerie and Circus. Doris's show will be in Atlanta on Saturday. In reaking of it the Times, of Chattanooga, says:

This mganificent traveling circus and menageric gave two exhibitions in the city yesterday to crowded texts both afternoon and evening. The street parade was gorgous and attracted large crowds, being in every respect equal to any parade ever witnessed in the city. Several novel features were presented, and texture altoyethee it was one among the best circuses, ever exhibiting in Chattanooga, some of the special features excelling those of any other. Showless renarkable bareback riding, accomplishing the wonderful fest of making a forward somersault while his horse was going at a rapid gait, and another hardly less wonderful of leaping from the ground to a standing position on the horse's back while it was in full anotion. The fying men in the air, Fisher brothers, were extending, posturing, etc., were above the average. The music was much above the average and the metagerie was complete in all details. In fact there was not a lagging feature. Mr. Doris left a good impression, and his circus is superior in every respect. peaking of it the Times, of Chattanooga, says:

One fire cracker was touched of near him, all of which, happened between they operated in the presence of a fraud.

While we deem the manifestation of violence outher part of the boys as severely reprehensible, it was very presumptious in Thornton to appear before the footlights without at least some qualifications for the performance. He was returning home with his wife from Cincinnati, and at Boyce station Mr. Rawson went into the Chattanooga sleeper for a moment, thinking, of course, the transfers were made here in the city. On the contrary the Atlanta sleeper was switched off and taken down by the Western and Atlantic train. Mr. Rawson was nearly half way to Chattanooga before he discovered that he was on the wrong train and had his wife a tickets. He immediately telegraphed the circumstances to the conductor of No. 4, and then left for Atlanta yes tenday afternoon at 1255 o'olock. He was considered which world over his missake.
